

CHCSS00075 Chronic Disease Self-Management

Units of competency	
Code	Title
CHCCCS001	Address the needs of people with chronic disease
CHCCCS023	Support independence and wellbeing

Course description

This skill set reflects the skill requirements for work assisting clients with self-management of chronic disease.

Target group

This skill set is for people working in various care and support roles in the community services industry who wish to develop skills in supporting people with their self-management of chronic disease.

Statement of Attainment

Upon successful completion of the course a Statement of Attainment will be issued. These competencies from the CHC Community Services Training Package meet industry requirements for work with clients to provide support for their self-management of chronic disease.

Units of competency

CHCCCS001- Address the needs of people with chronic disease

This unit describes the skills and knowledge required to determine and address specific issues faced by people who have chronic disease, in the context of contributing to a holistic approach to support.

The unit applies to workers providing services to people with chronic disease in diverse community services and health contexts.

Units of competency

CHCCCS023- Support independence and wellbeing

This unit describes the skills and knowledge required to provide individualised services in ways that support independence, as well as physical and emotional wellbeing.

This unit applies to workers in a range of community services contexts who provide frontline support services within the context of an established individualised plan.

Duration

- Face to face – 3 sessions of 8 hours each = Total 24 hours
- Self-Paced – Total of 20 hours
- On-the-job – Total of 120 hours (recorded in logbook)
- For the purpose of meeting training package requirements, **students must be currently employed within the community services industry** in a role that includes the provision of direct care or support.
